Gusto offers built-in dashboard functionality, where users have easy access to all system functions. For accountants, the client dashboard offers a variety of system options, including Employees, Contractors, Reports, and Company Details. Payroll can also be run directly from the dashboard as well. An Accountant's Dashboard is also available, where users can directly access features such as the Gusto Partner Program and Billing. Conveniently, all clients can be accessed from the dashboard, making it easy to manage multiple client payroll needs.

Gusto offers complete local, state and federal tax compliance, with tax tables available for all 50 states. All related payroll reports are automatically calculated by Gusto, with reports submitted electronically to the appropriate agency.

Reporting options are fairly standard in Gusto, with payroll related reports such as Payroll History, Contractor Payments, and Tax Payments available, with users able to process reports by department if desired. While report export capability is limited, all reports can be saved as a PDF file if desired.

Gusto integrates with several time tracking applications including [TSheets](#), When I Work, Boomr Mobile Time Tracking, Nimble Schedule, and Time Tracker. The product also offers solid integration capability with numerous third-party applications including QuickBooks, FreshBooks, Xero, and QuickBooks Online, as well as Guideline for 401(k), Receipt Bank, and Capital One Spark Business.

Both employee and client portals are available in Gusto at additional cost, with accounting firms able to individually assign a portal to their client, who in turn can provide access to their employees. Users can determine the level of access that a client is provided – with remote time entry completed by the client an option. An online onboarding process allows users to log into the system to enter their own personal information and fill out tax forms electronically. The same process also offers employees the ability to access pay stubs and W2's at their convenience.

When the name change was instituted, Gusto also added a variety of HR tools

email and message support is available at no additional cost. Gusto also provides all professional accountants that use their product with a partner advisor at no additional cost. Base pricing for Gusto is \$39.00 per month, along with a \$6.00 per person – per month fee assessed. Pricing for accountants varies, with volume discounts provided based on the number of clients a firm maintains. Pricing includes payroll processing, employee and client portal, HR, Health and Benefits administration, 401(k) administration, and complete Workers Compensation Management.

2017 Payroll Rating – 4.75 Stars
