including cash, checks, and credit cards, and users can easily setup an unlimited number of tender types during product setup. Multiple tender types can also be accepted for a single transaction if necessary. QuickStore also handles multiple transaction types, including special orders, returns, layaways, gift cards and customer quotes.

Users can opt to use a standard computer monitor or a touch screen monitor, with users able to choose their desired input method during product setup. QuickStore also offers solid customer tracking and management capability, with users able to monitor and track customer demographics, billing information, credit card information, credit instructions such as credit limits, as well as maintain special pricing levels and discounts for each customer in the system. QuickStore offers excellent inventory management capability, with users able to create automatic purchase orders on low stock items, Manage inventory levels with automatic purchase orders for items below reorder levels. Users can also receive merchandise directly into inventory by scanning the UPC code. Up to five different pricing levels can be assigned to each inventory product, and using WASP Barcode applications, users can create custom barcode labels for all inventory items.

QuickStore offers reporting options in five categories; Sales, Inventory, Customer, Lists, and Other. Daily sales reports are available to track cashier activity, and a solid selection of inventory reports such as Inventory Summary, Inventory Aging, and Top 40 Items help retailers manage inventory levels and sales activity pro-actively. QuickStore also contains time clock functionality, with each shift producing a detailed shift hour detail report, as well as an accounting of overtime hours worked and a comprehensive list of all transactions that were entered on that particular shift.

Along with QuickStore POS, Wasp Barcode Technologies offers inventory control,

getting started videos on a variety of topics. A searchable knowledgebase is available from the website, and users can also access product downloads from this location as well.

QuickStore's Technical Support hours are from 8:00 AM to 6:00 PM Central Time. Users can access support via email from the Wasp support center or via chat. Toll free telephone support is also available.

QuickStore is designed for a variety of retail niche markets including apparel, jewelry, gift shops, sporting goods, and service retailers such as salons, and would work best with a smaller retail business. Available in three versions; QuickStore is scalable, with users able to easily upgrade to a more robust version if desired. The bundled version of QuickStore Professional is \$1,995.00 and includes one Checkout Lane License, Point of Sale Shoe, Cash Drawer, Pole Display with Cable, Barcode Scanner with USB Cable, Autosense Stand, Thermal Receipt Printer with USB Cable, Power Supply, POS Keyboard with Magstripe Reader, USB Hub and a one-year maintenance subscription which includes unlimited technical support.
