monitoring, and firms and administrators can easily control system access using the user permission capability function in the application, with various access levels available including complete access, limited access, or no access.

InsynQ offers virtual desktop capability, allowing users to access their applications from any location using a variety of devices, including PC and Mac desktop computers, laptop computers, iOS and Android smartphone and tablets.

InsynQ hosts popular applications such as QuickBooks Pro, Premier, and Enterprise, along with Sage applications such as Sage 50, Sage 100 and Sage 300. Microsoft Office applications are also hosted, including Office Standard, Pro, or Office 365. Common tax preparation applications such as ProSeries Tax, Drake Ta, Lacerte Tax and ProSystem fx Tax can also be hosted. Other applications hosted include Act! And Goldmine, ACCTivate, SpringAhead, Bill.com, SmartVault, and Qvinci. Along with standard hosting of the applications listed above, users can opt for a custom server that can host up to 98% of all available software applications.

InsynQ offers 24/5 support, with all support U.S. based. A group of on-call support engineers are available on weekends to ensure that users always have access to their files. Users can access support via chat, email, or telephone.

A knowledgebase is available on InsynQ's website that provides access to a variety of Getting Started tools designed to assist new users, with Getting Started guides available for Windows, Mac, Apple and Android mobile devices, and how to set up a smart phone on Exchange. Users can also schedule support time from this web page as well. Demo videos, a series of PDF's that can be downloaded, and access to the knowledgebase are available as well. Various downloads are also available for users to access directly from the website as well. All support is U.S.based, in Gig Harbor, Washington.

InsynQ offers standard hosting for a variety of applications including all versions of
