appropriate detail is entered, users can click "Create Paychecks" to process payroll. Employees can be paid via direct deposit, printed paychecks, or by manual check, when necessary.

Intuit Online Payroll supports tax calculations in all 50 states, and users will receive email notifications when taxes are due to be paid. Intuit Online Payroll does not impound taxes, letting users choose when to pay the tax liability. The product also supports quarterly tax filings such as 941 and state unemployment forms as well as year-end processing of W-2s and 1099s. Forms are automatically filled out, and filed electronically where possible, with forms and coupons available to print for mailing when necessary.

Intuit Online Payroll offers a good selection of payroll, employee, and tax reports, including Tax Liability, Total Pay, and Tax and Wage Summary reports. Payroll Summary and Payroll Detail reports are available as well. Reports offer basic customization capability, with users able to export reports to Microsoft Excel for further customization if desired. Users can also create custom report groups for each client, ensuring that each client receives the reports best suited for their needs.

Intuit Online Payroll offers easy integration with Intuit's Online Time Tracking function, with system users able to track time using the online Time Clock, or by entering time in the timesheet. Time data can also be imported directly into Intuit Online Payroll from an Excel spreadsheet.

Intuit Online Payroll for Accountants offers complete integration with other Intuit products such as QuickBooks Desktop, QuickBooks Online, QuickBooks for Mac, and Quicken. This creates a seamless process of information across products. The product also integrates with Peachtree.

Intuit Online Payroll offers easy client access via an employee portal, with users able
