reliable and verified sites in conducting research as Checkpoint Edge provides users the ability to search Checkpoint, IRS.gov, AICPA, EY and Deloitte among other trusted sources simultaneously.

This new user interface is so intuitive that staff can easily ask questions and get the answers they need without any upfront decision making on what sources are applicable. Simply put, subscribers will use it just as they would any internet search provider, which increases the use from more junior or digitally native staff, removing the burden of senior staff to find all the answers. Checkpoint Edge search capability goes beyond results to suggest relevant expert insights and analysis which means you can get back to your clients with the right answers in less time.
