PDF Organizer offered in ProConnect is now part of Link, and tax preparers can cut down on paper by allowing their clients to sign forms electronically using the e-Signature feature (powered by DocuSign, for an extra charge).

In addition, the 2019 tax year version contains navigational enhancements and improved loading times for all pages. For those seeking additional help and support enhancements, the 2019 version of ProConnect Tax Online now includes Point-of-Need Guidance for answers to frequently asked questions, as well as enhanced help features located inside the application, allowing users to search for answers without leaving their workflow. Also new is the option to create a tax plan using prior year returns, creating up to three tax scenarios per year, as well as the ability to make multi-year comparisons.

Product Features

A vertical menu to the left of the screen offers quick access to all product features, and the Tax Returns screen provides a nice overview of all returns sorted however you like, with the status of each return included in the overview.

Along with an intuitive user interface, ProConnect Tax Online offers a variety of user tools to streamline system navigation and form preparation including a search option, a split view, where tax forms can be viewed on a separate screen while you are entering data, and some fields on tax forms include a jump to input option for quick data entry. For firms that process a high number of returns, a batch processing option can be used to quickly carry over prior year data to the current tax year.

ProConnect Tax Online supports more than 5,700 forms and schedules for forms 1040, 1120, 1120S, 1065, 1041, 990, and 709 as well as major forms for all states. ProConnect Tax Online offers more than 18,000 automated calculations and 20,000 diagnostics that can be easily accessed when preparing forms. ProConnect supports

e-filing for both federal and state forms, and the e-file dashboard provides a quick
